About Me

I am a web development enthusiast currently participating in the Front-End Development program sponsored by Ford and dedicated to courses at DIO to enhance my skills in both Front-End and Back-End (C and ASP.NET). With practical experience gained in a financial services company, I master essential technologies such as HTML, SCSS, CSS, Figma, JavaScript, and Bootstrap. In addition to development, I actively contribute to application testing, ensuring a high-quality user experience and identifying potential flaws. I also hold a proficiency certificate in English from TALKNTALK.

Experiences

Fastcash - Estágio Developer software   Jul 2023 - present

- Proficient in C and ASP.NET, along with Bootstrap, for building robust and scalable web applications, including a web application for clients transacting PIX, providing a fast and secure payment experience.

- Skilled in user-centered design (UX/UI), focusing on improvements and exceptional user experience through iterative
design processes and user feedback analysis.

- Specialized in front-end development, employing JavaScript to implement interactive functionalities like real-time chat features and drag-and-drop interfaces.

- Utilized Figma for prototyping and designing intuitive user interfaces, collaborating with cross-functional teams to iterate on design concepts.

- Proficient in SCSS and CSS for advanced and consistent styling of applications, adhering to design systems and maintaining code quality standards.

Education

Ford Academy - Ford - Enter - Front-end development -	2023 - 2024
Human Resource Management RH - Faculdade Estácio de santo andré	2019 - 2022

Certifications

Atualmente - **Ford Academy**	Course focused on Web development and Design.
